### DETAILED ACTION

#### *Remark*

- This Office Action is in response to applicant's preliminary amendment filed on August 30, 2006 which has been entered into the file.
- By this amendment, the applicant has canceled claims 1-11 and has newly added claims 12-22.
- Claims 12-22 remain pending in this application.

#### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 12-18, drawn to Fabry Perot filter, (Class 359 subclass 578).

Group II, claim(s) 19-22, drawn to coating method, (Class 427).

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: group I invention is related to structure of a Fabry Perot filter where group II invention is related to method for applying filter to a substrate or coating process. The coating process certain is relied on a special technical feature that is totally different from the structure and materials of the Fabry Perot filter.

3. A telephone call was not made to applicant to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
